DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 1, drawn to a feline scratching post, classified in class 119, subclass 600.
- II. Claim 2, drawn to a litter box, classified in class 119, subclass 171.
- III. Claim 3, drawn to a pet feeding bowl, classified in class 119, subclass 51.01.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions Group I is a feline tree and scratching post used for providing an element to scratch on a resting area is different than Group II which is a litter box for defecating adjoining a rest area and different further Group III being pet feeding bowls for water and pet food.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joan M. Olszewski whose telephone number is 703-305-2693. The examiner can normally be reached on Monday-Friday (5:30-3:00) First Friday Off.
